Global Code of Ethics Overview

At PPG, we hold ourselves to a very high standard of business and professional conduct.

**Our reputation** for being an ethical and respectful company with which to do business is a crucial competitive advantage. It is our **responsibility and commitment** to ensure the long-term success of our company — to the benefit of our customers, shareholders, employees, suppliers, and neighbors.

**Our success** depends on your ability to make decisions that are consistent with our values.

The Global Code of Ethics embodies our core values and expectations as an ethical company. Use it as a tool to help make the right decisions and resolve ethical issues that you may encounter.
