

Export Compliance

ALERT

This **Export Compliance Alert** is being sent to all businesses which have a commercial relationship with PPG Industries Inc. or one of its subsidiaries (“PPG”) that may involve export control issues. Please forward this Alert to all persons at your company whose jobs involve exports of PPG products.

Critical Export Control Responsibilities

PPG’s *Trade Compliance Policy* in its updated Global Code of Ethics states....

“PPG’s ability to export its products, services, technology and technical data around the globe is a privilege that must be carefully safeguarded. We require our employees to understand and abide by all applicable export laws and regulations and to maintain and adhere to PPG’s internal procedures and processes that govern our compliance with applicable export controls. Similarly, PPG requires compliance by its employees with all trade and customs restrictions, laws and regulations, in addition to PPG’s internal requirements, relating to the import of materials and services around the world.”

Further guidance with respect to this Policy is available under “Corporate Ethics” at www.ppg.com. Translated copies of the Global Code of Ethics are available on this website.

As a business partner of PPG, please be advised of your critical responsibilities regarding your export related transactions with PPG.

We expect you to:

1. Comply with U.S. and local export control and sanction laws and regulations. Many transactions which take place outside of the United States fall under U.S. jurisdiction due to the extraterritoriality application of U.S. export control and sanction laws and regulations. (Additional details on U.S. export controls and sanctions can be found on the following websites: www.bis.doc.gov, www.pmdtc.state.gov and www.treasury.gov.)
2. Be informed of PPG’s Global Code of Ethics (“Code”), especially as related to export compliance. An excerpt of the **Trade Compliance Policy** from PPG’s Code is provided in this Alert. The entire Code, in multiple languages, is available online at www.ppg.com.
3. Report to PPG’s Chief Compliance Officer (CCO) any suspected or actual violation of any U.S. export control and sanction law or regulation that involves items or employees of PPG, to the extent such reporting is legally permitted in your country. PPG also encourages you to report suspected or actual violations of PPG’s **Trade Compliance Policy**.

There are three ways to report a violation:

- PPG’s confidential, anonymous “Hotline”
 - PPG’s online reporting system
 - Direct email to PPG’s CCO (ChiefComplianceOfficer@ppg.com)
- Information on these reporting methods is available at www.ppg.com.

Both the Hotline and online reporting system are reviewed by PPG’s CCO. It is against PPG policy to retaliate against anyone for making a good faith report of a suspected violation of the law or our **Trade Compliance Policy**. We are also committed to maintaining the confidentiality and anonymity of such reports, and complying with required data privacy laws.

Failure to comply with any export control and sanction law or regulation or to support PPG in its export compliance efforts may result in PPG taking appropriate action, including terminating our business relationship.

Please contact PPG’s Chief Compliance Officer at 412.434.3131 in the United States if you have any questions or concerns about the above.
